

One scene over the other

- 1) Put clip you want underneath on the Video line
- 2) Put clip you want on top on the video Overlay line
- 3) Put cookie cutter on the top clip. Change Shape to Rectangle. Leave Method as Cut away all but section. Change border down to what you need like 0.01. Move Size until you get what you want.
- 4) You can fade the top clip if you want the back clip to bleed through.
